# Mamata accuses BJP of trying to split TMC

**HT Correspondent**
letters@hindustantimes.com

**KOLKATA:** Trinamool Congress (TMC) chairperson Mamata Banerjee on Tuesday accused the Bharatiya Janata Party (BJP) of attempting to cause a split in her party by pressuring all the legislators, as her first public demonstration since the assembly election defeat drew only a handful of sitting MPs and MLAs amid signs of growing dissent within the party.

Addressing a two-hour protest at Esplanade against alleged post-poll violence and eviction of hawkers, Banerjee claimed that the BJP was using police and central agencies to lure TMC legislators into breaking away.

"You (the BJP) had split the ruling party in Maharashtra. You are doing the same here. Police are telling TMC MLAs to form a new party. Police are going to the homes of MLAs facing corruption charges and threatening them with federal agency investigations. Is this democracy?" Banerjee said, without naming the Shiv Sena which suffered a split in 2022.

Amid reports that Ritabrata Banerjee and Sandipan Saha, the two expelled MLAs, were meeting others to engineer a split in the TMC, only nine sitting MPs and MLAs attended the demonstration.

Several former ministers and MLAs once considered close to Banerjee stayed away.

A senior TMC leader, requesting anonymity, claimed that more than 50 legislators had expressed support for a breakaway faction.

# 80% chance of El Nino forming between June-Aug, says WMO

**Jayashree Nandi**
letters@hindustantimes.com

**NEW DELHI:** There is an 80% chance of an El Nino developing between June and August, the World Meteorological Organization (WMO) warned on Tuesday, a grim portent for the world's climate in general and India's monsoon in particular.

El Nino is a periodic warming of sea surface temperatures in the central and eastern Pacific Ocean, which typically lasts between nine and 12 months. The system plays havoc with global temperature and rainfall patterns and increases the risk of extreme weather.

In India, an El Nino is associated with a weaker monsoon and harsher summer.

The El Nino which is currently taking shape will be moderate and could even be strong, said the update, a possibility that will raise alarm bells in India, which is already staring at a weak monsoon.

The possibility that El Nino conditions will develop until at least November is "near or above 90%", said the agency.

"The science is clear: El Niño is arriving on our doorstep in the coming months with 90% certainty. The world must treat it as the urgent climate warning it is," UN Secretary-General António Guterres said in a statement.

"El Niño conditions will pour fuel on the fire of a warming world. Impacts will hit even harder, travel even farther, and cross borders with devastating speed. The only effective response is climate action equal to the crisis – ending the addiction to fossil fuels, accelerating the shift to renewables, protecting the most vulnerable, and delivering early warning systems for all," he added.

Rainfall is likely to be below normal during the June–September southwest monsoon across much of South Asia, with the strongest signal over central regions, according to a seasonal forecast by WMO issued on April 30. The map issued by WMO showed below normal rain over almost all of India.

WMO El Niño updates are based on a consensus of models from WMO Global Producing Centres, experts from national meteorological and hydrological services and climate prediction centres around the world. They are produced through a collaborative effort between the WMO and the International Research Institute for Climate and Society (IRI).

HT reported on May 10 that ocean temperatures this April were the highest since a record spell of warmth in 2024, as the world's waters heat up rapidly with a strong El Nino event approaching.

## May take life out of monsoon

### What is El Nino?
A natural climate phenomenon that warms surface temperatures in the central and eastern equatorial Pacific, bringing worldwide changes in winds, pressure and rainfall. It occurs every 2-7 years and lasts around nine to 12 months, oscillating with its opposite, La Nina, and neutral conditions.

### What WMO said
Forecasts indicate an 80% El Nino probability for June–August and near or above 90% by November. Most models suggest it will be moderate, and possibly strong. WMO chief Celeste Saulo said the world must prepare for an event that could exacerbate drought, heavy rain and heatwaves.

### What it could bring
Below-normal rainfall in the northern Greater Horn of Africa during the June–September rainy season; below-average monsoon rainfall in south Asia; and drier, warmer summer conditions in central America. Warm Pacific waters can fuel hurricanes in the central and eastern Pacific.

# Former judge Giribala, son Samarth sent to 14-day judicial custody

**Shruti Tomar**
shruti.tomar@hindustantimes.com

**BHOPAL:** A special Central Bureau of Investigation (CBI) court in Madhya Pradesh's Bhopal on Tuesday remanded former model and actor Twisha Sharma's husband Samarth Singh and mother-in-law Giribala Singh to 14 days of judicial custody.

Twisha was found dead at her marital home in Bhopal on May 12. Her family accused her husband Samarth and his mother, retired judge Giribala Singh, of dowry torture, while the accused insist it was suicide. Initially registered by Bhopal police, the case was later handed over to CBI on the recommendation of the state government.

The magistrate Shobhna Bhagave directed authorities to ensure special security arrangements for Samarth and Giribala Singh, after the latter expressed fears for their safety. Giribala Singh pointed out that many hardened criminals lodged in Bhopal Central Jail had once faced her strict judgments, and their presence posed a threat to her and her son.

The court ordered that both be kept in Bhopal Central Jail until June 16, but in secure, separate cells. Representing herself, Giribala said: "To remain with jail inmates whom I had punished in the past will be dangerous for our lives."

She also urged the court to stop what she described as a media trial and expressed fear for their safety. "False allegations are being levelled against us. We have not released any CCTV footage of the incident. I have no idea how the media got this," she said.

The court directed CBI to transfer Samarth and Giribala Singh to jail discreetly, and said that they be escorted from the courtroom to the vehicle in secrecy to avoid public exposure.

The CBI produced Samarth and Giribala Singh before the chief judicial magistrate after five days of interrogation, which included crime scene recreation and virtual reconstruction of the timeline.

Giribala Singh, Samarth Singh
